SOLID WASTE/GENERAL SERVICES

February 24, 2014

Dear Community,

This letter is to notify you that as of March 1, 2014 the City of Clearwater Solid Waste Department will be transitioning our multi-family recycling program to single stream recycling. There will no longer be a need to separate recyclables into different bins and you will be able to recycle more than ever before!

Now in addition to plastic bottles, mixed paper, newspaper, and aluminum & steel cans, you can also recycle glass bottles and jars (all colors), plastics #1-7, cardboard (cut down to fit in container), aerosol cans, and milk & juice cartons. Enclosed is a brochure with additional information.

If you currently have recycling bins on your property, please notify your residents that they can now recycle more. There will be no service changes (same collection day, one time per week). We will be changing labels on and/or switching containers to reflect the new program. If you need additional containers or brochures for your community, please contact us.

If you are not currently recycling at your property, but would like to start, please call (727) 562-4933 for additional information and to set up a program.

Best Regards,

A handwritten signature in black ink, appearing to read "Kattrina Miller".
